

PEDRO PASSOS

Assistant Professor

Pedro Passos is Assistant Professor with Aggregation at the Faculty of Human Kinetics, University of Lisbon, where he teaches Development, Motor Control and Learning. He graduated in Physical Education and Sport in 1995, a Masters in Sport Psychology in 1999 and a PhD in Sport Sciences in 2008, all at the Faculty of Human Kinetics. In postgraduate education, has supervised and co-supervised master and doctoral students from Portugal, The Netherlands, Australia, Brazil and Spain. He has several international peer-reviewed publications as well as books and book chapters. His research interests focus in the area of intra and interpersonal coordination, where he currently develops research projects related to the possibilities of passing and shot on goal in football, and with the formation of synergies during a motor action. In his leisure time, he practices mountain biking, surfing and Stand Up Paddle.
